Rodrigo Disselli de Almeida

UX/UI Designer | Product Designer
Brazil | disselli.rodrigo@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Senior UX/UI Designer with 7+ years of professional experience designing digital products for **Brazilian and international technology companies**. Experienced in leading design initiatives, mentoring designers, conducting user research, and translating complex business requirements into intuitive digital experiences. Strong expertise in Sketch, Figma, prototyping, design systems, usability testing, and cross-functional collaboration. **Experienced working directly with international stakeholders and US-based clients**. Skilled in integrating **AI-assisted workflows** and rapid prototyping into the product design process.

EXPERIENCE

Senior UX/UI Designer
Venturus — Aug 2023 – Present

- **Led and mentored design teams**, driving visual strategy, design quality, and consistent execution across complex digital product initiatives.
- **Collaborate with cross-functional teams** (product managers, engineers, stakeholders) to align design with business objectives.
- **Served as the primary presenter and organizer for US-based client projects**, pitching design proposals, capturing business/user requirements, and aligning cross-functional goals.
- Create **user flows, wireframes, prototypes, and high-fidelity interfaces** in Figma.
- Present new features and conduct **usability reviews** to ensure user satisfaction.
- Implement **AI-assisted workflows** to increase design efficiency.
- **AI vibe coding** for prototype creation and design system development.

Mid-level UX/UI Designer (Pleno)
Venturus — Jan 2021 – Aug 2023

- Designed end-to-end experiences for web and mobile platforms.
- Facilitated **user interviews, usability testing, and requirements gathering**.
- Improved product usability through iterative design and **data-driven feedback loops**.
- Partnered with engineering teams to ensure seamless design-to-development handoff.

Junior UX/UI Designer
Venturus — May 2020 – Jan 2021

- Supported design efforts by creating **wireframes, mockups, and prototypes**.
- Assisted in **requirements analysis and stakeholder meetings**.
- Contributed to building **consistent design systems and UI components**.

Junior Product Designer (UI/UX)
Assertiva — Nov 2019 – Apr 2020

- Designed user interfaces for internal and client-facing digital solutions.
- Created **visual assets, prototypes, and responsive layouts**.
- Conducted **basic UX research** to align features with user needs.

Product Design Intern (UI/UX)
Assertiva — Jul 2018 – Nov 2019

- Assisted senior designers in **design production and user testing**.
- Gained hands-on experience in **wireframing, prototyping, and digital illustration**.
- Supported delivery of design assets for product launches.

EDUCATION

B.S. in Computer Engineering
Centro Universitário Salesiano de São Paulo — 2016 – 2020

CERTIFICATIONS & COURSES

- **UI Design Patterns: Usabilidade em Interfaces Mobile** — Alura
- **Principles + Practices for Great UI Design** — Udemy
- **UX Designer Career Track** — Alura

SKILLS

UX/UI Design: Figma | Sketch | Adobe XD | Wireframing | Prototyping | User Flows | Design Systems | Usability Testing | Accessibility | Stakeholder Communication | Agile & Scrum Collaboration | AI-assisted Design | Ant Design

WebDevelopment (Basic): HTML5 | CSS3 | JavaScript | Sketch Plugin Development

Soft Skills: Communication | Collaboration | Problem-solving | Adaptability | Presentation
